

Queens College  
**Foundations of GEOMETRY**  
MATH 618, sections E4MBA, E6MBA course # 2983, 2984  
Spring 2008  
Instructor: Alex Ryba

**Required text:**

- (1) David A. Brannan, Matthew F. Esplen, Jeremy J. Gray:  
*Geometry*,  
Cambridge University Press, 1999,  
ISBN: 0521597870.

**Classes:** Monday, Wednesday, Ky 417

**Instructor:**

Alex Ryba  
ryba@cs.qc.cuny.edu  
718-997-3488  
office: NSB A342  
office hours: Monday, Wednesday 10.15am – 11.15am  
or by appointment.

**Course Website:**

<http://venus.cs.qc.edu/~ryba/math618/>

**Reminder:**

The class will not meet on: Monday, February 18 (no class)  
Monday, March 24 (no class)  
Monday, April 21 (no class)  
Wednesday, April 23 (no class)

**Requirements:**

There are two midterms and a final exam (all cumulative). There will be several homework assignments. Student proofs from homework assignments might be used as examples for class discussion.

Grades for students who complete satisfactory homework assignments will be based on the two best exam scores. Other students will be assigned a grade based on all three exam scores.

**Final Exam:**

At present the college has scheduled the final exam for:

Monday, May 19. (Either at 4pm for the 4.30 class, or at 6.15pm for the 6.30 class.)

This date and time might be changed by the college during the semester.

The first midterm exam will take place during the week of March 17th to March 21st.
